SENTIMENT FOR SEWARD GROWING AT DANVILLE

Popular Belief Is that Accused Murderer Will Be Found Not Guilty.

ARGUMENTS IN CASE EXERCISES AT UPLAND

Special to the Indianapolis Journal.
DANVILLE, Ind., May 2.—The case of Henry Seward, charged with the murder of his wife in Putnam county a year ago, is expected to reach the jury tomorrow evening. Arguments in the case began this morning. George W. Harvey speaking for three hours for the State and James L. Clarke representing the defense this afternoon. Clarke carefully rehearsed the evidence and went into detail more than did Attorney Harvey. Clarke's explanation of several phases of the evidence apparently had considerable weight with the jury. Tomorrow morning John Rawley will speak for the defense and George W. Brill will close for the State in the afternoon. It is generally believed that the jury will return a verdict of not guilty.

MUNICIPAL ELECTIONS IN INDIANA TO-DATE TO DECIDE LOCAL ISSUES

(CONCLUDED FROM FIRST PAGE.)
for city clerk. Without a severance will probably be re-elected police judge by a large majority, and the success of A. W. Abbott, city treasurer. The Democratic opponent, George H. Ballew, his Democratic opponent. The councilman contests will be hard fought, and the success of the Republican majority in the city's governing board will be increased. Following Judge Vincent a racing and gaming bill. Williams from giving out election supplies to the men named as election inspectors by the Democrats in the council, the supplies were handed out to-day to the regularly appointed Republican inspectors.

STORMY CAMPAIGN ENDS AT HUNTINGTON

Special to the Indianapolis Journal.
HUNTINGTON, Ind., May 2.—The bitterest political campaign that has ever been waged in Huntington closed to-night. The News-Democrat to-night published charges against Charles E. Wintrobe, the Republican candidate for mayor, and against Tony Ford, a young Republican politician. The paper said of Ford that he is a common drunkard, that he has been getting drunk every night recently on campaign money. It published affidavits of three persons, who say that they presented Wintrobe's card at saloons here, and without any other compensation received drinks. The News-Democrat charged that this had been done in a number of other cases. Wintrobe and Ford say they will file formal demands for retractions, and if these are not granted they will institute a damage suit. Mr. Wintrobe and the Democratic candidate for mayor, J. Fred Francis, district Democratic chairman, met on the street to-night and got into a heated altercation. Their friends separated them, and they were arrested. Wintrobe afterward met Judge Whitehead, the editor of the News-Democrat, and the latter, after reading his statements in his paper, and another fight was stopped only by intervention.

TERRE HAUTE MAY BE FREED FROM BOSSISM

Special to the Indianapolis Journal.
TERRE HAUTE, Ind., May 2.—The most remarkable municipal campaign in the history of Terre Haute closed to-night with the Republican managers confident of carrying the city by not less than 1,000. The betting is that way. The common impression is the same and there is no attempt on the part of the Democrats to disguise their fear that it will so result, although they are working hard to the last, and saying that outstanding indications are that the Democrats will win. The city was not always reliable. Mayor Steeg was elected for a second term two years ago by a little more than 1,000 majority, but since then the Tammany organization, which was the boss of the city, has been using the city for the benefit of the bosses and the public has become tired and disgusted with the situation. Edward Bidaman, the Republican candidate for mayor, was nominated by acclamation, after defeating the Democrats in the Republican primaries, thereby demonstrating his personal strength in such a way that the Democrats, who did not know him personally, felt that he was free from factional or corrupt control and rallied to his support.

WATER WORKS FIGHT ISSUE AT NEW ALBANY

Special to the Indianapolis Journal.
NEW ALBANY, Ind., May 2.—The municipal election to-morrow promises to be one of the warmest ever held in this city. The Republicans have been in control for the last ten years and the Democrats are making a desperate effort to defeat them. The water works ordinance recently adopted by the city council has been made an issue by the Democrats, but the Republicans are confident it will not figure in the result. The ordinance reduced the rates on fire hydrants from \$100 to \$75 per year and made a reduction in the rates of private consumers of from 15 to 25 percent, the saving to the city on hydrants being \$3,000 a year, or \$20,000 for the forty years of the water works. The Democrats are contending that a still lower rate should have been made. Mayor Frank L. Shrader, Republican, is a candidate for re-election, and his opponent is William George.

Republicans Expect Victory.

Special to the Indianapolis Journal.
WASHINGTON, Ind., May 2.—The Republican city ticket is strong, but the city is Democratic by a small majority, but a Republican victory is expected to-morrow because of the vigorous campaign that has been conducted. The Socialists have candidates for city offices, but not for councilmen. This is believed to be beneficial to the Republican ticket, as most of the members of that party formerly were Democrats. Edward F. Meredith, candidate for mayor on the Republican ticket, has been several years for city judge, and he is expected by many to be elected, and probably help to carry the Republican city ticket with him.

Interest at Logansport.

Special to the Indianapolis Journal.
LOGANSPORT, Ind., May 2.—Great interest is taken in the city election here to-morrow, and the streets are crowded with politicians and their friends. Although Logansport is normally Democratic by a small majority, the Republicans are confident of the election of George McKee, their candidate for mayor, as some dissatisfaction is felt in some quarters over the administration of Mayor Vaughn, who is a candidate for re-election. The campaign has been fought largely on local issues, but without the introduction of personalities.

Wabash to Retain Reputation.

WABASH, Ind., May 2.—The city election to-morrow promises to be a lively one, although the campaign has been singularly quiet. At the last election the Democrats undertaken to influence the election by undertaking certain of the Republican candidates for Council, but the indications are that the election of McKee, who is a Republican ticket will be elected by the usual majority. The city is wholly Republican at this time, there not being a Democrat on the payroll.

A. Edmiston, of South Washington street. Seven years ago last December thieves looted the Edmiston home, taking clothing, jewelry and other valuable things. TRACTION WAR DELAYS WORK AT WINCHESTER

Railroad Seeks Temporary Restraining Order to Block a Grade Crossing.

Special to the Indianapolis Journal.
WINCHESTER, Ind., May 2.—Work on the Dayton & Muncie traction line through this city is being stopped rapidly, but some delay will be occasioned on account of the resistance of the Grand Rapids & Indiana Railroad to the traction line crossing its roadbed on Washington street. The traction company employees cut the track of the railroad and placed a frog, but the following morning a gang of railroad men appeared upon the scene, tore out the work and replaced the rails. A petition for a restraining order was then filed by the railroad and the traction company must wait for the action of the court before they can again cross the railroad.

It is stated that a deal has been closed in New York for summer cars and regular tourist, sleeping and buffet cars to be used on the line between Dayton and Muncie. It is stated that arrangements have been made with the Union Traction Company of Indiana whereby the special cars of the Dayton & Muncie line will be used over the Union Traction Company's line to Indianapolis, thus saving the traction service between Dayton and Indianapolis.

CAPTAIN COLES IS ILL

Special to the Indianapolis Journal.
RISING SUN, Ind., May 2.—The trial of James Gillespie for the murder of his twin sister Elizabeth was continued to-day until May 9 at the request of the defense. James Gillespie, Mrs. Seward, sister of the defendant, and Mr. and Mrs. Myron Barbour, who have been jointly charged with the murder, all pleaded not guilty when they were arraigned before Judge Downey in the Ohio Circuit Court. This arrangement was necessary, as their former plea had been withdrawn at last term.

On application of the defendant's attorneys, F. M. Coffey and John B. Coles, the case was continued until next Monday, owing to the illness of Captain Coles. Judge Downey this morning ordered a special venire of fifty names drawn by the commissioners for reporting on Monday. Positive injunction was given by the court that the names drawn should not be revealed by the officials to any person. EVANSVILLE, Ind., May 2.—The bitterest fight in the history of the Democratic party is expected to-day afternoon when the convention will be held at Germania Hall for the purpose of selecting thirty-six delegates to the state convention. Edgar L. Maines, president of the State Jefferson League, arrived here to-day to look after the interests of Mr. Hearst. He was accompanied by one of Hearst's agents, who failed to register at the hotel. It is said the agent is here to look after the "boys." Both sides are claiming the delegation to-night and hard work has been done on both sides all day. Hearst and his followers are claiming that a check was received here from Indiana for \$100,000 and that the money is being used in the interest of the Parker men. The fight has been carried on the streets to-night that the convention will be on the rule or ruin order and a belt is likely to be broken out.

SOAKED IN COFFEE

Until Too Stiff to Bend Over.
"When I drank coffee I often had sick headache, nervousness and biliousness much of the time, but about two years ago I went to visit a friend and got in the habit of drinking Postum."
"I have never touched coffee since, and the result has been that I have been entirely cured of all my stomach and nervous trouble."
"My mother was just the same way, we all drink Postum now and have never had any other coffee in the house for two years, and we are all well."
"A neighbor of mine, a great coffee drinker, was troubled with pains in her side for years and was an invalid. She was not able to do her work, could not even mend clothes or do anything at all where she would have to bend forward. If she tried to do a little hard work she would get such pains that she would have to lie down for the rest of the day."
"I persuaded her at last to stop drinking coffee and try Postum. Food Coffee and she did so, and she has used Postum ever since, the result has been that she can now do her work, can sit for a whole day and mend and can sew on the machine, and she never feels the least bit of pain in her side. In fact, she has got well, and it shows coffee was the cause of the whole trouble."

GLASS WORKERS MAY NOT LEASE IDLE FACTORIES

American Company Threatens to Turn Out L. A. 300 Men Who Become Competitors.

NEW UNION IS STRONG

Special to the Indianapolis Journal.
HARTFORD CITY, Ind., May 2.—The window glass industry, always beset with complications, has broken out in a new and unexpected place. A few weeks ago President Paul St. Peter, of old L. A. 300, announced that his association would lease a number of idle factories and start them in operation to give employment to the idle membership of his organization. It is understood that the manufacturers who employ workmen of the St. Peter organization have made it known that when the labor organization starts into the manufacture of window glass and becomes an active competitor in the field of the window glass market that they will no longer employ St. Peter's workmen. A strong pressure is being brought to bear upon the officers to abandon the scheme and it is believed that the labor organization will not engage in manufacturing. Last week it was announced that the St. Peter organization had leased the thirty-six-hour plant at Bensenville, Pa., but it is denied positively at this time. It is positive that not a factory has been leased. A committee of officers and members of the executive board of the Window Glass Workers' Association, L. A. 300, visited the headquarters of the American Window Glass Company last week and had a long conference with the officials of the trust. It is understood that the labor organization made it plain to the trust that if it would start its idle plants the plan of engaging in business would be abandoned.

It is also reported that the new organization of window workers which was recently formed at Cleveland, O., is making rapid strides, and that in post office membership lists already outside of the Denny branch, John Phillips, Jr., who retired as president of the Denny branch Saturday night, is really the power behind the new organization. The Denny union is scheduled to go on strike this union, bag and baggage, in a few weeks.

How he escaped death or serious injury is inexplicable.
